

Hero Accounts – Reimbursement Automation Agent The Hero Accounts Reimbursement Automation Agent automates and simplifies the entire reimbursement process, reducing manual work and increasing accuracy.

1. Auto-read & Validate Receipts Using OCR The system automatically reads uploaded reimbursement receipts using OCR. Extracts key information such as amount, date, vendor, GST, category, and purpose. Validates data against company rules including limits, allowed categories, and GST requirements.
2. Claim & Budget Matching Matches expense claims with approved travel budgets or project budgets. Checks remaining budget and eligibility before forwarding for approval.
3. Smart Approval Workflow Automatically assigns claims to the correct manager for approval. Sends notifications to managers, employees, and finance teams. Track approval status in real-time.
4. Update Sheet & Notify Employees Updates Google Sheets or internal dashboards after approval. Automatically informs employees about claim approval, rejection, or pending status.
